## INTRODUCTION

For certain people, the occult is enthralling. However, many people associate satanism with child sacrifice and selling one's soul to the devil for beneficial purposes. This could not be further from the facts. The majority of Satanists are actually non-theistic. The first time the occult was brought upon as an actual religion was in 1966 by Anton LaVey ("The Black Pope") under the Church of Satan.

Through the passage of time, several more satanic branches emerged from both the theistic and non-theistic aspects of Satanism.

Another more popular example of a non-theistic organization of satanism would be The Satanic Temple (TST) Which is more of an activist group that fights for human rights. unlike the Church of Satan which is more left-hand path based and more individual.

However, there are extremist groups that use satanism to "support" their causes. Groups like the "order of nine angels" encourages actual human sacrifices and are very much involved with pedo sex rings and most identify as Neo-nazis. And those of The Joy of Satan that also identifies as Neo-Nazis (Nsm). They aren't Satanists; they're dangerous people who have been condemned by Satanists.

Real satanism is not about extremist groups and human sacrifice. Satanism is about the belief in one's self and the philosophy of scientific knowledge.

## **PREFACE**

The Satanic Handbook of Pax was published since there are no books that contain identical information of the Satanic Pax's beliefs and practices. Even though Anton LaVey's book "The Satanic Bible" has most information of what the Satanic Pax believe in they still left out some key things that match the Satanic Pax's philosophy.

The Satanic Handbook is not intended to be derogatory to any other organizations nor their members The Satanic Handbook is just for informing others of The Creed of the Satanic Pax.

We do not offer the original type of satanism that the Church of Satan provides nor do we claim that The Satanic Pax is the "real" form of satanism That Anton LaVey started in 1966.

We also like to state that one does not need to join an organization like ours or others to be a "Real Satanist"

## **The 8 Reasons of Pax**

The 8 Reasons of Pax demonstrates what sets us apart from other organizations.

1. The Creed of the Satanic Pax promotes peace as one of it's main tenets
2. The Creed of the Satanic Pax is for those who do not identify with the tenets and rules of the other organizations but still don't want to be independent
3. The Creed of the Satanic Pax uses both Baphomet and Satan as metaphors
4. The Creed of the Satanic Pax isn't openly political
5. The Creed of the Satanic Pax don't use black-magic
6. The Creed of the Satanic Pax recognizes all forms of Satanism except extremist forms
7. The Creed of the Satanic Pax is against all restrictions of one's own body
8. The Creed of the Satanic Pax uses Science and Math as our main Philosophy to life (666 is a clear challenge to those who reject scientific reality)

## **The Eight Tenets of The Satanic Pax**

These are the eight fundamental tenets that The Satanic Pax study and follow.

been granted permission

# **The Seven Satanic Sins of Pax**

These are things that are forbidden to do in The Satanic Pax

## **I**

Stupidity

*The act of being oblivious to one's suffering*

## **II**

Hatred

*Hating any creature without having a valid reason to do so*

## **III**

Lack of Scientific knowledge

*Claiming silence isn't real to further one's own beliefs*

## **IV**

Harmfulness

*Harming animals for the sake of entertainment*

## **V**

Discrimination

*Unfair treatment of an individual based on their race, gender,  
or age.*

## **VI**

Paedophilia

*Sexual attraction towards children*

## **VII**

Worshipping a deity

*The studies of concepts and philosophies are central to true Satanism.*

*Christianity, for example, worships a single deity. They are  
unconcerned with what this deity does or believes. That is why it is  
never a good idea to worship a single person/deity.*

## **Satanic Holidays**

Your birthday is the most critical event in all of satanism, not just The Satanic Pax. Instead of praising a deity, satanists will celebrate themselves as a symbol for being their own "deity," as opposed to Christians who only think about and celebrate one god. Satanists believe that all Satanist' birthdays should be commemorated.

Hexennacht which starts on April 30<sup>th</sup> and ends on May 1<sup>st</sup> is a two day holiday commemorating those who died as a result of the Salem Witch Trials in 1692. The Salem Witch Trials were a series of trials that convicted innocent people of witchcraft and resulted in the execution of 19 people. Hexennacht also honours those who were wrongfully imprisoned during the 1980s Satanic Panic (Satanic ritual abuse). Hexennacht is also celebrated by TST.

Halloween, All Hallows' Eve or All Saints' Eve was signaled the close of summer and harvest, as well as the start of the long, freezing season, which was also synonymous with human death. Celts claimed that on the night before the New Year's Day, the line between the living and the deceased blurred. They celebrated Samhain on October 31st when it was thought that the spirits of the departed returned to earth.

But Although nowadays, Halloween is all about candy and dressing up in costumes to “embrace the dark”.

## **Sexual Freedom**

For consenting adults, Satanism does allow for sexual liberation of all kinds. To a Satanist, love is a way of being truthful and loving to one (or more).

Sexual Freedom is not just about opposite-sex relationships. Those who are homosexual, bisexual, asexual or anywhere outside of those three shall be equally given the same sexual freedom as those who have opposite-sex attraction.

Sexual Freedom also refers to the right to enjoy one's own body, such as "self-pleasuring," sex modification, and reproductive liberty for there is scientific proof that benefits both sex modification, and reproductive liberty and both are basic human rights.

Your body is only sacred because it is your domain. Restricting your body for no reason is the only abuse you can do to yourself

Sexual Freedom, on the other hand, prohibits non-consensual sexual acts as well as sexual abuse of minors, all of which are a disgrace to all.

## **Symbols of The Satanic Pax**

In Satanism, a variety of symbols are used. There are three major symbols of the Satanic Pax.

The first major symbol of the Satanic Pax is Baphomet. During the 12<sup>th</sup> century, Baphomet was worshipped by Knights Templar to represent Satan.

In The Satanic Pax, Baphomet is a symbol of darkness for those who oppose and enlightenment for those who want it.

The second major symbol is the Inverted pentagram (a pentagram facing down). The Inverted pentagram gained public recognition When French occultist, Eliphas Levi caught the public's attention with his fascination in magic and the occult. The inverted pentagram was synonymous with evil.

In The Satanic Pax, The inverted pentagram represents personal power, independence, and self-accomplishments. It's a defiance of Christianity's hegemony over society and a reminder that you're in charge of your own destiny.

Lastly, the third major symbol of The Satanic Pax is Satan. Satan represent Wisdom for those who wish to seek it and rebellion against religious ideology.

Those of christian faith believes that Satan was a fallen angel who possessed great piety and beauty.

**Ave Satanas**
